

Jesus is the key

Only God's Son has the answer to humanity's three great concerns

The three great concerns of humanity are how to attain world peace, the problem of personal shame and guilt, and the overshadowing fear of death.

Notice, **first**, what God is doing about the problem of world unrest and the inability of anyone to find a remedy. He is directing us to accept the man of his choice who has introduced his unheard of solution - conquer the world by love!

The profound influence of Christ's Church on global affairs demonstrates that, through Jesus, the Prince of Peace, God could meet our need if only we would listen.

Second, again through Jesus God meets our problem of personal shame and guilt. Of all religious teachers who ever lived, only he claims to be able to forgive sins. Sure enough, when he impacts our personal lives we experience the peace of sins forgiven.

But, **third**, does God have a solution to mankind's fear of death? Once again, he points us to Jesus, the only person who conquered the grave, rose from the dead, and now offers to share his victory over death with all who follow him.

We can have this specific confidence in God's man, Jesus - in all of history there has never been anyone to match him.

*

If I have Jesus only, I'm safe for eternity.
If I have everything else without him - I am lost.

Ken Packer
